Alzheimer's Disease (AD) Petition

The Caregivers' Army has launched a worldwide petition drive in support of finding a cure for Alzheimer's Disease. Researching the cause and cure of this disease offers our best hope.

In recent years, research has yielded important discoveries. Researchers say they are close to finding ways to slow Alzheimer's in its developing stages. The genes associated with the disease have been identified. New drugs and other substances may work to slow its progression. Much more needs to be done. We must do all that we can to stop this terrible disease.

Advances in medical research may help slow its wicked progression and let more people live their golden years in dignity. That's why we are working to secure substantial increases in funding for Alzheimer's research.

The goal is to collect 1 million or more signatures. The signatures will be presented to Congress in Washington, DC, to show that AD victims and their caregivers have huge public support for more recognition and help.

Who can sign? Anyone and everyone! That includes people not registered to vote, non-American citizens - anyone! A person doesn't even need to "sign" the petition. As long as they say it's OK, you can add their name to it. That way you can even collect names by telephone, fax or email!

You can sign the petition online at: <http://www.caregiversarmy.org> and you can print a copy of the petition from the Caregivers' Army website. If you are signing online please provide your email address and your state of residence in addition to your name. The Army can also send you the petition and several signature forms if you give them your address. Write to:

Caregivers Army
7579 HIDDEN TRACE DR.
WEST CHESTER, Ohio 45069

and send a SASE. (self-addressed stamped envelope)

Representatives of the Caregivers' Army will take your signatures to Congress.

Please be sure and pass this on to family and friends. Help us collect as many signatures as possible. I want to see future generations not having to worry about Alzheimer's disease.

Thank you,

Carolyn Haynali
Spokesperson and Founder for Caregivers Army

<http://www.caregiversarmy.org>
e-mail: carladydove1@juno.com

To be presented to Congress, to urge greater budget allocation for research to find a cure or treatment. Anyone can sign, including minors (14 or older) and people not registered to vote. Sponsored by Caregivers Army, P.O. Box 64, Berlin Center, OH 44401 [<http://www.caregiversarmy.org>]
